

their health is our benefit

Help the employees maintain their health year round through the addition of a wellness benefit, reduced out-of-pocket expenses by utilizing a (PPO) Network, and helping them protect their entire family against illnesses or injuries. As you know, whatever impacts your employees or their family, impacts your workplace.

Take a closer look at what we offer the workers...

and

Allstate.

Workplace Division

meeting their needs

- Employee & Employer co-funded
- Electronic enrollments
- Quick claims response
- Employee support

We can make the benefits process easy, flexible, and beneficial to our clients and our employees.

Ask us how.

how it works

We work with our clients to schedule enrollment dates and/or online enrollment assistance to help with administration of the benefits' program. At any time before or during enrollment periods, we provide the employees with a custom brochure detailing the highlights of the plan(s) which have been selected. The employees then meet with PlaceSmart Agency and our representatives (or enroll online) and choose the coverage that best fits their needs or the needs of their family.

our PPO provider

Our (Preferred Provider Organization) PPO, Allstate (in association with Beech Street offered by Viant), provides unsurpassed value combining nationwide access, deep discounts on covered services, and exceptional service. The network includes over 535,000 individual practitioners and over 87,000 facility locations, including more than 4,800 acute care hospitals.

smart fact #1

We estimate that almost 5 out of 10 of our placed employees consider medical/health insurance to be among the most important workplace benefits. They are often willing to make considerations in other areas to ensure a comprehensive and affordable medical plan.
